

## Installing the Overdrive App

The first thing you will need to do is install the Overdrive App from the Apple “App Store”. On your device’s home screen, you should see a blue icon with a circle and an “A” formed by a pencil, pen and a line. It is for the “App Store.”

Once in the app store, you should see a search box in the upper right. In the search box, type in “Overdrive Media Console.” You should see Overdrive listed in the results box that drops down below the search area. Select this.

After selecting “Overdrive” in the results area, you should see the icon for the Overdrive app. It is blue with a white circle on it. Select “Free”, then “Install.”

Next, please find the app on the iPad. It looks the same as the blue square with the white “O” on it as seen in the app store.

## New Overdrive Tutorial

The New OMC 3.0 comes preinstalled with a quick tutorial that walks you through all the changes to the app.

## Go to the library's Digital Media Catalog

To start downloading EPUB eBooks or MP3 eAudio, press the home menu in the upper left (it looks like three vertical lines) or use your finger to swipe the screen to the right.

You can either type in your zip code and select the blue “search” button or you can browse for libraries with the grey button.

One of the top options should be for “Harris County Public Library” or the name of your local HCPL branch. Select either if it is displayed.

Next you will be asked to choose the library system. Select “Harris County Public Library.” This option will now be set in the app for future eBook or eAudio searches.

In the future you can just select “Add a Book” from the app’s bookshelf.

Now that you have selected HCPL as the library system you will be taken to our digital catalog.

## Downloading

While browsing the catalog on your mobile device, please be aware that you will only be shown the compatible titles for your device. You will not see the titles or formats that cannot be downloaded to your device.

Next you will need to search the catalog to find and check out a title.

Please note that in order to read EPUB eBooks in the app you will need to first create a free Adobe ID. [You can do so here](#). You will be asked to enter the Adobe ID and password the first time you download an EPUB eBook.

Once you have found a title to checkout, select the green “Borrow” button. If it says “Place on hold” all copies are checked out and a hold will need to be placed on the title.

**The Litigators**  
by John Grisham

**Borrow**

This title can be borrowed for 14 days.  
(Change)

★★★★☆

The partners at Finley & Figg often themselves as a "boutique law firm"

In the next screen, select the green button that says “Download (Select one format).” To read in the Overdrive app, you will want to choose the EPUB format. Next select “Confirm and Download.”

The title will now start to download to the device.

## Reading a Title you just downloaded

Now that the title is downloaded, select the menu icon in the upper left. It is the three vertical lines.

In the menu options, select “Bookshelf.”

You should now see the book jacket for the title in the app's bookshelf. Select it to open it and begin reading.

**The Litigators**  
John Grisham  
Expires in 14 days

## Returning a Title Early

To return the title early, or to delete it from the device, make sure you are in the “Bookshelf” screen. Press and hold on the book jacket of the title to return. Three options should pop up on the bottom of the book jacket. Select “return” to return and delete it.
