Make your own Spooky Stamps!

You’ll need:
- Printed Design Template
- Craft foam
- Scissors
- Cardboard or craft wood
- Glue
- Stamp ink

Instructions:
1. Outline your reference image onto your craft foam. If you are using thin craft foam, make 2 copies of the image. They will be stacked on top of each other for added thickness.
2. Cut out your image from the foam.
3. With your cardboard or craft wood, cut out 2 rectangles that are a little larger than your image. This will be the base part of the stamp.
4. Glue the 2 rectangles together to create a thick base, and then glue the craft foam to the base. Remember that your design will be mirrored once you stamp it.
5. Let the glue dry for at least 30 minutes, and then your stamp is ready!
