

Animate your name with GoogleCS using Scratch[©]!

You'll need:

- A computer
- A free GoogleCS First account
- An adult to create a free Scratch account
- Your awesome name
- A little imagination

Instructions:

1. Go to the GoogleCS website. www.csfirst.withgoogle.com
2. Click on the 'Curriculum' link next to CS First.
3. Scroll down and click the 'Animate a name' activity.
4. At the bottom of the page click on the 'Start' button for the English or Spanish version of the activity.
5. Watch the introduction video from a GoogleCS computer scientist and a 4-H Teen Leader who teaches CS First classes.
6. Get some great pointers by watching the short videos to help you customize your project.
7. On the right side of the video click the 'Starter Project' link and a new window or tab will open to begin creating your name animation.
8. You can return to the previous page to re-watch the videos if you need any help with animating your name.
